COMPANY PROFILE

It is our mission as a company, to be known as PTSA PUMP AND TANK, following our 5 core values.

To provide products and services to our customers, in creating a safe working environment for our staff, those around us, and our clients on site.

THE 5 CORE VALUES ARE:

- 1) Safety
- 2) Discipline
- 3) Professionalism
- 4) Integrity
- 5) Pro-active

1. SAFETY "Collective"

- 1.1 All PTSA staff, always being active on various sites, shall maintain the highest level of safety.
- 1.2 All PTSA safety documents, shall be in place before conducting business at various sites.
- 1.3 All PTSA staff will have the necessary training and procedures, to carry out their duties, for the work procedures that are required, to do so safely.
- 1.4 All PTSA staff will ensure Safety as their primary goal, to complete their working procedures safely.

2. DISCIPLINE "Individual"

- 2.1 Each PTSA employee will be disciplined to acknowledge and take ownership of their own actions, when representing PTSA Pump and Tank.
- 2.2 Each PTSA employee is committed to a safe form of working behaviour on sites.

3. PROFESSIONALISM “Experience”

- 3.1 It is our duty, to know our tasks, and to execute them correctly.
- 3.2 It is our duty, to transfer our knowledge of the products, and services when required.
- 3.3 It is our duty, to have an open communication to our clients or the dealers on site, regarding the site conditions, and the impact that the required work may have.
- 3.4 It is our duty, to ensure that all employees are kept neat and tidy.
- 3.5 It is our duty, to ensure our vehicles and equipment are kept neat and tidy.
- 3.6 It is our duty, to be in control. Control of the site, the team, equipment, and vehicles.
- 3.7 It is our duty, to ensure all employees are competent staff members and trained.
- 3.8 It is our duty, to ensure that we plan-ahead, ensuring that we are equipped with the correct tools for the task.

4. INTEGRITY “Principle”

- 4.1 To conduct our work with honesty.
- 4.2 To be proud in our achievement.
- 4.3 To take ownership in leading our teams.
- 4.4 To strive to be loyal and committed to our clients and colleagues.
- 4.5 To have a solution to the problem.

5. PRO-ACTIVE “Future Knowledge”

- 5.1 Our focus is in leadership when conducting our work, which in turn can ensure, that we adhere to the following.
- 5.2 Having and keeping to production timelines.
- 5.3 Having our teams work together in achieving our goals on site.
- 5.4 Having control measures in place, should the site conditions be different than that being discussed during planning phase.
